EDUCATION

Zeal College of Engineering and Research

Pune, MH

Bachelor of Technology in Artificial Intelligence & Machine Learning (CGPA: 8.86 / 10.0)

2023 – Present

- **Relevant Coursework:** Object-Oriented Programming (Python/C), Data Structures & Algorithms, Discrete Mathematics, Web Development.

TECHNICAL SKILLS

Languages: Python, C, JavaScript, TypeScript, HTML5, CSS3

Developer Tools: Git, GitHub, VS Code, Node.js, Firebase, Socket.IO

Core Competencies: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Applied AI Features, Web Architecture

PROJECTS

PulseNet — Emergency Response Platform

JavaScript, Node.js, Firebase, Socket.IO

Google Solution Challenge Participant

- Engineered a real-time emergency response web application enabling one-tap SOS triggering, live GPS sharing, and crisis mapping.
- Integrated Socket.IO protocol for sub-second alert delivery and nearby user notifications during active crises.

Sumruddha-Sala-E-Portal

JavaScript, HTML/CSS, AI Features

Full-Stack Developer

- Developed an AI-backed school infrastructure tracking system to streamline administrative monitoring and asset management.
- Built dynamic UI modules to track facility compliance and automate status reporting.

Personal Developer Portfolio

TypeScript, React, Vite, CSS3

Frontend Developer

- Designed and deployed a responsive personal portfolio featuring structured project showcases and interactive UI components.

ACHIEVEMENTS & LEADERSHIP

Google Solution Challenge 2026: Selected project participant focusing on real-time crisis communication technology.

AVISHKAR '26 (DEVCLASH): Earned Certificate of Appreciation for technical competitive excellence.

Pitch Night Event: Awarded Certificate of Participation by AIML Department & Google Student Ambassador Program.

Leadership Discipline: Developed strategic decision-making and teamwork through rigorous NDA coaching modules.
